## Nia and the Magic Library

Nia loved visiting the local library every Saturday. She liked reading books about space, dragons, and faraway lands. One rainy afternoon, she found a dusty old book on the highest shelf. When she opened it, golden light sparkled from the pages!

Suddenly, Nia found herself standing in a forest full of talking animals. A wise owl handed her a map and said, “Only readers can unlock adventures like this.” Nia followed the map, met a dragon who loved riddles, and crossed a rainbow bridge. When she closed the book, she was back in the library, smiling with wonder.

She checked out the book and whispered, “Can’t wait for chapter two!” From that day, Nia read more than ever and believed in the magic of imagination.
