The Green Team at School

At Oakwood Primary School, the students started a group called the Green Team. They wanted to keep their school clean and help the environment. Every Thursday, they picked up litter from the playground and sorted recycling.

One day, they noticed that many students were throwing plastic bottles in the wrong bin. So, the Green Team made colourful signs to remind everyone to recycle properly. They also gave a short talk in assembly about saving trees and reducing waste. Soon, more students joined the team and helped care for the garden too.

They planted flowers, watered them daily, and built a compost bin for food scraps. By the end of the term, the school looked cleaner and greener than ever. The principal thanked the Green Team for making a big difference with small actions.
